

PEACE OF MIND WHEN YOU NEED IT **MOST.**

FIND OUT WHAT STEPS WE'RE TAKING TO SAFEGUARD OUR
EMPLOYEES AND CUSTOMERS AGAINST **COVID-19...**

OVERVIEW

As more businesses slowly return to work and we steadily begin to welcome back our employees, we wanted to touch base with our customers, employees and suppliers to let you know what we are doing as a business in light of the COVID-19 pandemic.

Since the outbreak, we have actioned our new **Be Safe, Be Stronger** policy in an effort to keep our team as safe as possible and ensure they feel comfortable upon their return to work.

BE SAFE
BE STRONGER

WHAT WE'RE DOING FOR OUR TEAM

2M SOCIAL DISTANCING

We are also observing a 2m social distance at all times and are being mindful of where others are to ensure we can maintain this distance throughout the day.

Limits to the amount of people allowed in one room at a time is also in action.

ONE-WAY SYSTEM

We have introduced a one-way system in high risk areas of our premises where close contact is likely to occur.

This ensures we can maintain a 2 metre distance at all times.

RECORDING TEMPERATURES

Each morning, all employees have their temperature checked as we know that a high temperature is a key indicator of the Coronavirus.

HAND SANITISING STATIONS

We have roled out multiple hand-sanitising stations across the site so that our team can reduce the risk of spreading the Coronavirus between surfaces.

WHAT WE'RE DOING FOR OUR CUSTOMERS

DISINFECTING MACHINES

Before going out on hire, every machine is thoroughly disinfected with G101 Biocidal cleaner with extra attention taken on high risk areas such as keypads, control boxes and entry/exit gates.

PEACE OF MIND

We are also time and date stamping our machines so that the customer has the peace of mind knowing their machine has been fully cleaned and disinfected.

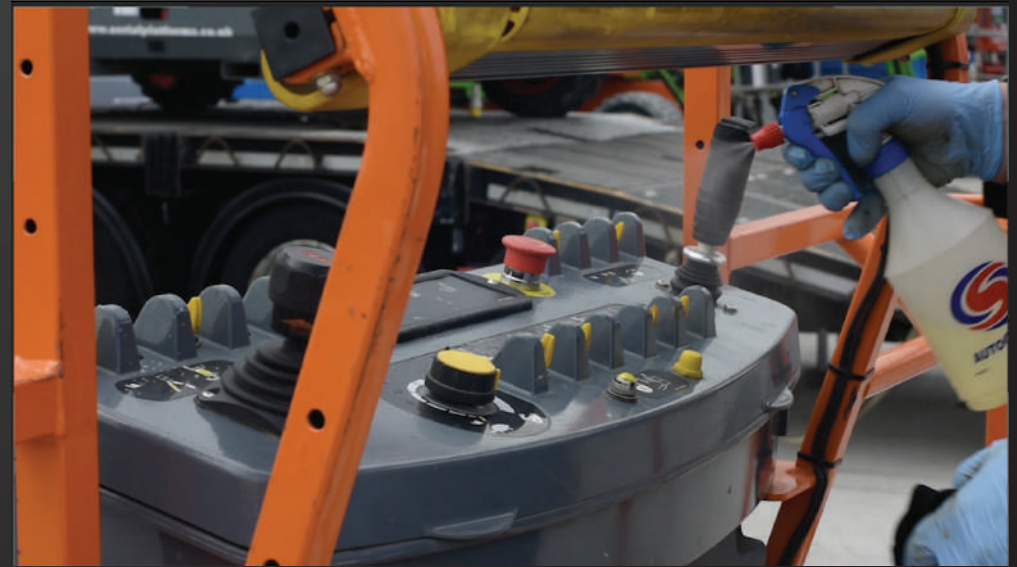

DRIVER SAFETY MEASURES

As with all of our staff, our drivers have been issued with the necessary PPE to keep both themselves and our customers safe. This includes gloves to avoid touching basket controls. They are also disinfecting their trucks after each delivery and reducing contact with the customer thanks to our paperless system.

CONTROLS DISINFECTED

As well as the initial disinfectant clean that each machine receives before going out, our drivers also disinfect the controls, entry/exit gate etc after they drop it for extra peace of mind.

AVAILABLE AT A MOMENTS NOTICE!

Should you have any Powered Access requirements in the upcoming weeks, please don't hesitate to get in touch with us today on:
