

Secondary Guarding Anti-Entrapment Devices

Advantages:

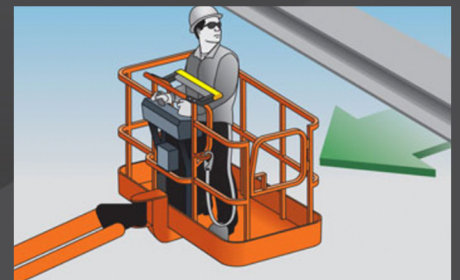

- Can be activated from a variety of angles.
- Stops or Reverses boom movement.
- Does not increase the platform profile or limit the use of the platform.
- Audible/Visual alarm

Operator moves towards obstruction

Horn sounds upon operator contact with the bar

The auto reverse feature activates for most functions

Our range of anti-entrainment devices are designed to be as unobtrusive as possible and provides operators with enhanced protection that doesn't limit platform workspace or visibility

At APL, we believe the safety of our customer's operators is paramount and so these devices come:

STANDARD ON OUR BOOM LIFTS
